

COMPANY: Cypress In-Line Inspection (“Cypress”)	JOB TITLE: In-Line Inspection Tool Operator	Position Type: Non Exempt
OTHER: Preferably located in Houston, TX or Salt Lake City, UT. Remote work possible.		

GENERAL SUMMARY

Cypress is a technology company serving the municipal water and energy industries. We develop ultra-high resolution In-line inspection (“ILI”) tools offering ultra high-resolution images of pipelines to assist the owners in managing their pipeline integrity program to protect property, people, and the environment. These ILI tools are complex and utilized to inspect both municipal water pipelines that transport drinking water, and energy pipelines that transport various hydrocarbon products. Our technology utilizes axial Magnetic Flux Leakage (“MFL”) technology. We work for some of the most prestigious municipal water authorities and energy pipeline companies in the world including City of San Francisco, Jordan Valley, North Jersey Water Supply Commission, Washington County Water, US Army Corp of Engineers for US Air Force bases, City of Denver, Chevron, Dominion, DCP Midstream, Plains All American Pipeline, Phillips 66, Targa Midstream, etc. This position will market and sell our ILI services.

- PRINCIPAL DUTIES & RESPONSIBILITIES (other duties may be assigned)**
- Specific duties will depend on priorities, but may include:
1. Learn about technology, operating and technical procedures, quality systems, and workplace procedures.
 2. Learn how to clean equipment, tracking, troubleshooting, repairs, QC policies, HSE standards, and maintenance procedures ensuring quality and proper operations.
 3. Assist certified technicians in completing projects in accordance with customer requirements.
 4. Complete inspection projects in accordance with Cypress' operating guidelines.
 5. Assist in the preparation, launching and receiving of ILI systems and associated support equipment.
 6. Safe operation of forklifts, hoists, and cranes as needed.
 7. Transport of ILI systems and associated support equipment to project site.
 8. Identify opportunities for cost savings and improvement in the work environment.
 9. Ensure the quality, accuracy, and timely completion of project-related reports.
 10. Analyze field data and interpret basic pipeline features for field reports.
 11. Apply knowledge of job scheduling and planning.
 12. Ability to work independently or with a team in accordance with project scope.
 13. Actively participate in training sessions and pass required exams IAW API 1163 and ANSI/ASNT ILI-PQ 2017 standards.
 14. Ability to apply practice knowledge from informal/formal training, classroom, and OJT to field work.
 15. Promote Environmental, Health & Safety and always follow safe working practices.
 16. Represent Cypress with high moral standards, adhering to its "Code of Business Conduct and Ethics."
 17. Actively support the Cypress' commitment to its core values including safety, leadership, equal employment opportunity, employee development, and operational excellence.
